Sir, I have been fishing the central coast for 50 years, and I can say that fishing has never been better than it is at the present time. I can not believe there has been a fair and honest study done. You are taking the living and recreation away from many, many people. You will take away 100's of millions from our state economy. I can only believe that the people pushing this move have there own agenda. This is not about protection of the spieces, but about enviro. whacko's and there silver spoon feed lawer's. F &G it's about time you stood up for fishing right's of the people! Larry Schmidlkofer, 16136 Rd. 212 Poterville Ca. 93257
